MINES AND MINING STOCKS = FINANCIAL AND COMMERCIAL

RICH ORES FROM PIOCHE MINES

Samples From Pioche-Nevada Consolidated.

MINING CONGRESS RATES

NEW COMPANY TO OPERATE AT ALTA CAMP.

Loaded down with samples of fin lead-silver ore, John W. Burton, pres ident of the Pioche-Nevada Consolidated company, returned from a ten days' trip to the company's mines, out of Pioche, Nev., yesterday morning. One of the most interesting of the exhibits was the lot of ore taken from the No. 2 shaft on the Talisman ledge and 120 feet from where the main shaft is going down. At a depth of forty feet there is four feet of carbonate ore carrying crystalized lead in such quantity as to make the ore exceedingly heavy. That the ore will also run high in silver is very evident and Mr. Burton says there is no doubt in the world that the chute from which the samples were taken is identical with that being fol

lowed down in the main shaft.

He also brought up samples from the shaft on the North Star claim, where there is a junction between a very large cross-fissure and the main contact or Talisman ledge. These workings are distant from the others something like 2,000 feet and, while development has not been sufficient to prove his the-ory as yet, Mr. Burton says he would not be surprised if the largest body of

ore in that region did not exist at the function of these veins.

"Anyhow," said Judge Burton, "we have done enough work to know that we have a splendid mine, rather than a prospect, and it is now only a matter of opening up the ground to make ter of opening up the ground to make it pay handsomely. The new whim hoist on the Talisman shaft is working splendidly and good progress in sink-ing will be made from now on. By and by we shall remove the whim and in-stall a power hoist. Then the whim will be used in developing other portions of the ground as occasion requires, We now have the means to go ahead and before the year is over we shall have made a showing that will speak for it

MINING CONGRESS MATTERS.

Significant Slogan Adopted-Transportation Arranged.

"No strikes in Utah," is the slogar that will be used to clinch every argu ment presented by the Utah delegation to the approaching session of the in-ternational mining congress at Port-land, though it will not be used re-

will be laid on the fact."

Yesterday morning there was a meeting of the delegation's transportation committee, H. S. Joseph, John Dern and Duncan MacVichie, which later announced that rates had been secured from the railroad for the occasion. The round trip from here to Portland, with a sixty-day limit, will be \$31.50.

Pickets will be on sale from Aug. 16 Tickets will be on sale from Aug. 16 to 20, inclusive. To those who wish to extend their pilgrimage, a round trip rate of \$47.50, which includes a journey to San Francisco and Los Angeles by way of Portland, was secured. The train upon which it is expected

nearly all of our delegates and possi others will wish to travel will leave hard at work and by the time the delegates leave for Portland it is expected that the strongest argument of all why the "permanent home" should be lo-

by prepared. NEW COMPANY FOR ALTA.

Ground Adjoining Alta-Quincy Will

be Operated by It. For the purpose of operating a group of six claims adjoining the Alta-Quincy company's holdings on the south, the articles today or tomorrow. The company will be capitalized at \$150,000, represented by as many shares of the parvalue of \$1 each, and 40,000 shares will be placed in the treasury. Charles O. King, manager of the King Hardware company, will be president; Margaret Wagener, vice president; C. Goodsell, secretary; Bertha Wagener, treasurer; these, with L. Wagener, treasurer; these, with L. Wagener, constituting the board of directors.

The property is one which Henry Wagener owned and operated for many years during his lifetime. For two of the claims he paid \$10,000, and although many times the amount of work re-

formed, he neglected to secure govern-ment title. After his death nothing was done with the ground, which was finally relocated by Mr. King and othmany relocated by Mr. King and others who continued to do the work required by law. Now that the company is being formed the relocators have taken the pains to include the Wagener family for equitable interests, and it is hoped in the future to make the property worth as much to the Wagener bousehold as though its original owner. household as though its original owner had lived and continued to work it. The first action taken by the new company will be to patent the claims, and after that has been done arrangements will be made to systematically open the territory, which is counted as

GOLDFIELD PRODUCTION.

being exceptionally valuable.

Four Mines, Less Than Six Months Old, Show Up Well.

To those who doubt the quality and richness of the ores which have been and are being produced at Goldfield, says the Goldfield News, there is nothing frore convincing than the checks received from the smelters. These are coming in with increasing frequency.

Below we give the approximate production of the four leading mines to date, which is based on the actual smelter seturns as far as received and a conserve-

week. This will take the place of the extreme northeastern portion of county, almost due south to Wabust was then explained that the cuttuid save the long, round-about and shaul to Carson and Reho, relieve ustomary congestion in the vards latter place and greatly facilihe handling of the enormous tonthat Tonopah and camps in that are sure to provide. That this me other scheme of handling the sis now being figured out is by the following from the Carson News of Saturday:

The week opened on 'change vesterday'

BACK FROM NEWHOUSE.

Visiting Officials Tell of Progress

for over three years, found much to in-terest him at camp yesterday and he sig-nified his intention of remaining several days before returning to New York.

| Director of Silver King Con. Will Inspect Utah Properties. | J. H. Schmidland a well known cap. | Tonopah 7.85 | 8.59 | 8.00 | 8.75

italist and business man of Cincinnation a director in the Silver King Consoldated company, came in from the east Sunday, and this morning, in company with Manager Solon Spiro and Superintendent J. H. Keetley, will leave for the ompany's property at Park City. Enoying a respite from business cares, Mr. Schmidlapp will likely spend some little ime between Salt Lake and the various amps in which he is interested, particularly as his wife and daughter, who are been rusticating at the Silver King Consolidated mine for several weeks past, will be with him.

Everything at the mine is now running ke clock-work. Superintendent Keetley tated yesterday that good headway was eing made in sinking the big double comartment and manway shaft, the bottom with is now thirty feet below the 0-foot level. The flow of water is gradulty diminishing and the management is of expecting further trouble from that surce. The pumps are capable of taking care of a great deal more water than making, but, as the strata in which he flow was encountered has apparently the time, easy sailing is ahead. A hange of formation is occurring at the stom of the shaft, but what it porneds Superintendent Keetley is not induced the surgence of a granted that the sange now taking place is anything but scouraging in its nature.

CREOLE AT STATELINE.

en route from Denyer to Statelline, where he is exploiting the Gold Hayen and Creole properties. Mr. Webber considers Stateline an excellent camp to tie to and expects to inaugurate a campain of rapid development in his properties from now on.

Prof. Kingsbury, of the University of Utch. Was in Ploche yesterday making an examination of the Ada May, which Col. A C. Elis of Salt Lake is developing and which is considered a very valuable mining property.

The Escalante desert is being visited with very heavy rains and frequent cloud-bursts. Two cloudbursts were noted north of this point on Sunday, which owing to the ample water shed of this valley, did no damage.

QUINCY-TONOPAH ORE.

Local Company Gets Good Returns
From Initial Shipment.

The Quincy-Tonopah company recently organized in this city operate a group of claims near Crow Springs, Nev. has just marketed the first let of ore from the property. It consisted of a little less than seven tons which was taken out in sinking the shaft sixteen feet. The lot was sold in Reno and the returns made to Rodney C. Badger, secretary of the company, disclosed a near profit of \$570 notwithstanding the long and expensive wagoo haul. The lot assayed over 200 ounces silver, 00 per cent lead and \$4.00 in gold per ton.

The maragement of the company feets that it has the making of one of the big mines of the Tonopah region and development work is now being crowded.

Park City Mining Notes.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$62,600, as follows: Sn yer, lead, gold and copper ores, \$36,300; base bullion, \$26,300.

Silver, 58%e per ounce. Copper (casting), 11%c per pound, Lead, in ore, \$3.50; New York, \$1.19 per Mining Notes.

William Oaks leaves for the east on mining business this evening. He expects to be gone some little time. There is no change in the local settling price of copper this week. Business will be done on a basis of 11%c per pound.

C. L. Roof, manager of the Ontario, Daly and Naildriver, left for Park City yesterday morning to remain several dars.

The Ohio Copper company was settling for three cars of rich concentrates yesterday, while another carload was reported at the sampler. S. M. Levy of the Western Exploration company's staff, has gone into idaho to ook into a mining proposition and to insidentally do a little angling.

W. G. Thomas, who is in charge of af-airs for the Newhouse Mines & Smeiters or poration in Beaver county, is up from samp for a brief visit at home.

Dr. M. N. Boles of Columbia university.

GRAIN AND PROVISIONS.

Corn was strong, chiefly owing to the influence of wheat. September opened at 1/2 to 1/2 up at 52% 65%, and advanced to 53% before being checked by selling orders induced by reports of excellent progress of the crop in some sections. The close was at a recession from the high point, but the tone was firm. Local receipts, 255 cars.

Oats steady at the start, with September 1/2 to lower to 1/2 higher. With the upturn in the other pits the market advanced to 33% but lost some on realizing sales. Close was firm, 33% 633%. Local receipts were 411 cars.

Provisions were easy, early sales show.

Estimated receipts for tomorrow— Wheat, 25 cars; corn, 362; oats, 662 cars; loss, 15,000 head. The leading futures ranged as follows: WHEAT-No. 2-Open. | High. | Low. | Close.
